

BayCare Physician Partners

What is BayCare Physician Partners?

BayCare Physician Partners consists of a Clinically Integrated Network (BPP CIN) and a Medicare Shared Savings Program ACO (BPP ACO). They are two separate physician-led legal entities that consist of physicians, hospitals, and other health care providers. Physicians can choose to be a member of either organization or both, depending on what works best for you and your practice.

BPP CIN and BPP ACO are considered value-based care models. In value-based models, health care providers and hospitals work together to provide – **BETTER CARE, BETTER HEALTH, AT LOWER COSTS** - and in turn may be eligible for shared savings generated for success in each performance year.

Our Scope and Size

BayCare Physician Partners Clinically Integrated Network (BPP CIN) is a network of over 1,400 providers spanning 5 counties. BPP CIN has just over 220,000 attributed patients across five payors and 11 products. Each value-based contract has terms focused on goals to increase quality, reduce medical costs, improve patient outcomes and share in risk. As a member benefit, BPP CIN also can also negotiate and execute fee-for-service contracts on behalf of our primary care physicians.

	Product	Attributed Lives*
