HIGH VALUE NETWORK SPECIALISTS

Cardiovascular High-Value Specialty Network

We're proud to announce the BayCare Physician Partners' cardiovascular high-value specialty network.

What Is a High-Value Network?

High-value care means providing the best care possible, efficiently using resources and achieving optimal results for each patient. Strong leadership and participant support are essential to making an innovative high-value network successful. We used longitudinal cost, utilization and outcome measures to review our network of regional providers and define the high-value network. A cardiology high-value network of expert physicians from multiple different groups, both employed and independent, was developed with a thoughtful approach to meet the needs of our community. Participants in the network share a vision of high-quality, cost-efficient health care.

Communication

We're committed to providing you with timely communication about your patients' visits with our providers.

Access to Care

We're committed to providing you and your patients with efficient services:

- Same day appointments available
- Telemedicine appointments available
- Ambulatory cardiovascular testing offered
- Locations throughout the region
