## Payment Rule Waivers

- Skilled Nursing Facility (SNF) 3-Day Rule Waiver:
  - Our ACO uses the SNF 3-Day Rule Waiver, pursuant to 42 CFR § 425.612.

- Waiver for Payment for Telehealth Services:
  - Our ACO clinicians provide telehealth services using the flexibilities under 42 CFR § 425.612(f) and 42 CFR § 425.613 Fraud and Abuse Waivers

- **ACO Participation Waiver:**

The following information describes each arrangement for which our ACO seeks protection under the ACO Participation Waiver, including any material amendment or modification to a disclosed arrangement.

For each arrangement, provide the following information:

- Parties to the arrangement: All BayCare Physician Partners ACO Participants and providers.
  - Date of arrangement: Effective 06/01/2022.
  - Items, services, goods, or facility provided: See specific descriptions below.
  - Date and nature of any amendments to the arrangement, if applicable: BayCare Purchasing Partners added 10/12/22. See details below.
- **Population Health System.** This is a shared data system that provides analysis and performance reporting on the ACO's patient population. The system allows the ACO to identify patients with care opportunities and monitor the quality and cost/utilization performance of ACO participants and eligible Outside Parties. The ACO and the system Vendor provide support to integrate data from Payors, ACO participants, and eligible Outside Parties into the system to produce meaningful data and analytics. This arrangement includes management of user access to the system, ticketing and service request support, development of dashboard interfaces, and education and training for end-users. This arrangement provides transparency and promotes accountability for the quality and overall care of ACO-assigned Medicare beneficiaries, which assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
  - **Clinical Data Registry.** This is a data registry that provides insight into the clinical performance of ACO participants based on standard measures of care. The registry allows ACO participants to understand their quality performance relative to a peer cohort and identify patients with care opportunities. This arrangement includes management of user access to the registry, ticketing and service request support, development of dashboards and customized measures, and education and training for end-users. This arrangement provides transparency and promotes accountability for the quality and overall care of ACO-assigned Medicare beneficiaries, which assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
  - **Centralized Quality Reporting.** This represents centralized services provided by the ACO to meet annual quality reporting requirements of the Medicare Shared Savings Program and Quality Payment Program. These centralized services allow the ACO to meet certain reporting requirements on behalf of ACO participants, including CMS Web Interface (formerly 'GPRO') and CAHPS for MIPS reporting. This arrangement includes technical understanding of ACO quality measure specifications, clinical review and abstraction from medical records, coordinating requests to ACO participants for clinical documentation, submission of data to Medicare, and CAHPS for MIPS vendor selection and authorization. This arrangement allows for efficient and timely quality reporting and surfaces opportunities to Improve performance,

which assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.

- **Care Coordination Services.** This represents centralized care coordination services provided by the ACO including direct outreach to members and providers to facilitate scheduling and coordination of services, member education and support, closing gaps in care, medication review and reconciliation, among others. The centralized care coordination team intervenes with the ACO's patient population to support health maintenance, transitions of care, complex care coordination, community social support, among others. This arrangement allows for greater care coordination across the continuum of care, enhances delivery of preventative care services, and leads to improved quality and overall care of ACO-assigned Medicare beneficiaries. This assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
- **Risk Adjustment Program.** This represents centralized outpatient clinical document improvement services. The Program was established to support complete and accurate clinical documentation, coding, and billing practices across the ACO. The centralized risk adjustment team provide support, including audit functions and training and education, to ACO participants and eligible Outside Parties. This arrangement leads to more accurate risk scores and identification of ACO-assigned Medicare beneficiaries who can benefit from care interventions. This assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
- **Quality Improvement Program.** This represents centralized quality improvement and practice transformation services. These resources provide ACO participants and eligible Outside Parties with performance reporting, education and training, pre-visit chart review forms, and actionable data to improve quality of care and contain costs. This arrangement leads to enhanced provider engagement and improved care delivery for ACO-assigned Medicare beneficiaries. These resources assist the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
- **Network Development.** This represents development and maintenance of BayCare Physician Partners (BPP) as a clinically integrated delivery network. Network governance and oversight, data and analytics, incentive modeling and distribution, information systems support, and performance monitoring contribute to BPP and its ACO participants as a high-quality network that provides coordinated, cost-effective services to ACO-assigned Medicare beneficiaries. This arrangement ensures that BPP and its ACO participants provide sufficient access, support a positive member experience, and provide for the robust needs of ACO-assigned Medicare beneficiaries. This assists the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.
- **Clinical Programming.** This represents development of new clinical programs and the enhancement of legacy clinical programs. Clinical programs are developed to support BayCare Physician Partners (BPP) and its ACO participants in the delivery of care using the latest evidence-based practice and standards of care. This arrangement leads to improved population health, disease management, and care coordination for ACO-assigned Medicare beneficiaries. Clinical programs assist the ACO in improving and meeting quality performance standards of the Medicare Shared Savings Program.

- **BayCare Purchasing Partners.** Participating ACO providers have access to the BayCare Health System's supply contracts and distribution partners. This provides options for discounted prices for medical and non-medical supplies via a group purchasing model while assuring quality. This assists the ACO participants in meeting cost reduction goals of the Medicare Shared Savings Program. (Added 10/12/22)
